Report on HackSoc Elections 2008/Aut

Jeremy Jacob (acting as independent scrutineer)

2008 December 01

1 Introduction

I received a sealed envelope containing twelve (12) ballot papers. None of these papers were spoilt.

Each paper allowed votes for the six vacant posts. The election rules mandate the *Schulze method*[1]; for posts with two candidates (including *Re-open Nominations* [RoN]) this becomes majority voting.
